   Good knowledge of consumer level
   SLA and FDM additive manufacturing
Cooking Former Chef **2010-2012**
French B1 Level (GCSE B)
Korean A2 Level (Beginner)

William Parker
Full Stack Developer

From my background in Teaching and Veterinary Science, I am able to combine my passion for technology with an analytical mindset to develop efficient and effective solutions. I honed my technical skills at Le Wagon's Web Development Bootcamp in 2023, and have since gained experience in developing and deploying marketplace and multi-user apps using Rails, Stimulus, and APIs. As I continue to grow my skills and expertise, my ultimate career objective is to become a full stack developer.

Projects

2023
Le Wagon
Quandary
Quandary - A Game of Absurd Dilemmas
Link to Quandary Website
Link to GitHub Repository
- Pitched the concept and wireframe to a large group of developers
- Led a team through design, development, and deployment of a multi-user app utilising Rails, Stimulus and Action Cable to update users on choices and scores in real-time
- Delegated daily roles and goals as project leader, and maintained team morale
- Responsible for all deployment and domain setup
- Collaborated on both front-end and back-end coding
- Presented the finished app to a large physical and online audience

2023
Le Wagon
Furbnb
Link to Furbnb Website
Link to GitHub Repository
- Developed and deployed a marketplace app utilising Rails, and Unsplash API
- Collaborated in a small team, coordinating and negotiating on design choices
